

ANDY YAW NKRUMAH

Accra, Ghana | +233 24 644 0298 / +233 54 332 1361 | andynkrumah95@gmail.com

PROFESSIONAL SUMMARY

Software Engineering student with hands-on experience in frontend web development, system implementation, IT support, and digital design. Skilled in JavaScript, React.js, C++, HTML, and CSS, with practical experience building responsive websites and user-focused business applications. Strong problem-solving, troubleshooting, teamwork, and client-communication skills, with a focus on turning practical requirements into clean and functional digital solutions.

TECHNICAL SKILLS

Languages

JavaScript (ES6+), C++, HTML5, CSS3

Developer Tools

Git, GitHub, Visual Studio Code

Frameworks & Libraries

React.js, Bootstrap

Core Competencies

Responsive Web Design, UI/UX Principles, System Analysis & Design, Debugging & Troubleshooting, Basic Cisco Networking

Design & Creative

Graphic Design, Branding, Apparel Design

Additional

Communication, Teamwork, Problem-Solving, Adaptability, Time Management

EXPERIENCE

IT Intern — ROAACCU

2025

- Developed and maintained the ROAACCU website to improve its digital presence and usability.
- Assisted with system support and troubleshooting of hardware and software issues.
- Collaborated with team members to improve digital functionality and user experience.
- Supported day-to-day digital operations and contributed to more efficient workflow processes.

Print Production Assistant — Print House Multimedia

2022 – Present

- Create and customize branded materials including T-shirts, mugs, cups, stickers, posters, flyers, invitation cards, magazines, letterheads, and picture frames.
- Support printing and production processes for customized items and promotional materials.
- Work directly with clients to understand requirements and deliver accurate visual solutions.
- Contribute to branding, layout design, creative preparation, customer service, and production quality assurance.

SELECTED PROJECTS

Veylo Leave Management System | React.js, JavaScript, HTML/CSS

- Developed an employee leave management application for leave requests, record-keeping, and approval workflows.
- Built clean interface components to improve navigation and usability for employees and administrators.

File Upload & Management Portal | JavaScript, HTML5, CSS3

- Built a document portal for uploading, viewing, organizing, and managing files.
- Implemented authentication and structured file-management functionality for controlled user operations.

Custom Clothing E-Commerce Platform (Ongoing) | React.js, Web Technologies

- Developing a PWA for custom apparel design, customer orders, and digital payments.
- Planned features include product customization, supplier integration, and live messaging support.

ROAACCU Organizational Website | HTML5, CSS3, JavaScript, Bootstrap

- Designed and developed a responsive organizational website focused on accessibility, usability, and visual presentation.
- Improved cross-device layout consistency and the overall public-facing digital experience.

Console ATM Simulator | C++

- Developed a terminal-based banking simulation with authentication, balance inquiries, deposits, and withdrawals.
- Applied object-oriented programming concepts to structure the application.

Portfolio & Frontend Projects | HTML, CSS, JavaScript, React.js

- Built responsive web projects including coffee, real-estate, image-gallery, and other interface-focused applications.
- Focused on clean layouts, responsive behavior, usability, and practical frontend implementation.

EDUCATION

BSc. Software Engineering — Ghana Communication Technology University (GCTU)

Expected Graduation: 2027

CERTIFICATIONS & TRAINING

- Responsive Web Design Certification — freeCodeCamp
- Cisco Networking Essentials — GCTU Academic Coursework

ADDITIONAL INFORMATION

Driver's License: Valid | Interests: Frontend Development, IT Support, Digital Products
